New! CurrySimple Thai Curry Sauces & Soup Stock

Thai food is similar to Chinese, but with more intense flavors, aromas, spices, and textures and less reliance on soy sauce. Making Thai food has never been easier thanks to these restaurant-quality sauces prepared in Thailand, from scratch with fresh, natural ingredients to ensure an irresistible meal. Basic cooking skills are all that is required to prepare authentic Thai food at home in as little as 10 to 15 minutes.

To make one of the curries, simply heat a tablespoonful of cooking oil in a skillet and saute some cubed fresh chicken, beef, pork or shrimp for a few minutes until it is browned. Add chopped vegetables (such as frozen California blend or frozen stir-fry blend) and continue to saute until the veggies soften. Add the CurrySimple sauce mixture (and fresh tofu if desired) and heat gently until the sauce begins to bubble. Done! Serve over rice or Thai rice noodles.

To make classic Thai style soup, warm the CurrySimple soup stock in a saucepan and add some water. Stir in fresh or frozen vegetables (such as mushrooms, broccoli/cauliflower florets, carrot slices, red bell pepper strips, and bamboo shoots). Add tofu, shrimp, or slices of left-over roasted chicken, beef, or pork. Heat gently until the soup begins to bubble and the veggies are cooked to your preference. Garnish with cilantro and serve with rice, Thai rice noodles, etc.
